**VINEYARD INFORMATION**

At the core of the Rosé are Cabernet Sauvignon parcels grown and made on the Mulderbosch estate. This is the heart of the Rosé blend, and subsequently the wine has a distinct Stellenbosch character. Stellenbosch brings a lot of fruit and especially the right type of sweetness (fruit sweetness) to the palate. Swartland has more attack, it is more prominent on the palate, but also has a more herbaceous edge to it for interest.

**TASTING NOTES**

**Colour:** Very alluring pink candyfloss hue, fun and inviting.

**Nose:** This is an elegant Rosé, as expected made with Cabernet Sauvignon, it exudes class without forgoing its roots, but combines elegantly with everyday enjoyment. Classic fynbos and spice combine with candyfloss and raspberry cooldrink in an everyday fun way.

**Palate:** Both inviting with the sweetness of black and red berries, and also alluring with cinnamon and earthy fynbos perfume. This wine truly has it all and doesn't stretch to combine the classic with the really delicious!
